

NOEL GADDI

UI / UX DEVELOPER

Detail-oriented UI/UX developer with hands-on experience through personal projects, currently pursuing studies in Web Technologies. Skilled in creating intuitive user interfaces and passionate about full-stack development, with strong foundations in modern web frameworks (React) and responsive design principles. Eager to apply my growing expertise in both front-end and back-end development to build comprehensive web solutions.

TECHNICAL SKILLS

- **Front-End Development:**
 - Proficient in HTML5 and CSS3 for building responsive, accessible web pages.
 - Basic JavaScript (ES6+) for DOM manipulation and interactivity.
 - Currently learning React.js (developing a personal project to apply modern framework concepts).
- **Design & Prototyping:**
 - Designed wireframes, mockups, and high-fidelity prototypes using Figma.
 - Created marketing graphics, social media assets, and branding materials with Canva.
- **Productivity & Technical Aptitude:**
 - High-speed typist (101 WPM) with 97% accuracy and 77% consistency, ensuring efficient data entry, documentation, and coding workflows.
 - Familiar with Git/GitHub for version control and collaborative development.
 - Strong problem-solving skills with attention to detail in debugging and QA.

CERTIFICATIONS

- Responsive Web Design

2021 - 2023

WORK EXPERIENCES

ALL AROUND FREELANCE

2016 - Present

4 ACES Computer Shop

- Experienced in designing web presentations—whether formal, fantasy-themed, or topic-based—making them engaging and visually appealing.
- Proficient in encoding tasks ranging from simple data entry to large-scale documentation.
- Designed custom birthday celebration assets (invitations, social media graphics, and themed layouts) using Canva.
- Collaborated with clients to translate concepts into visually engaging, user-friendly designs tailored to diverse audiences.
- Applied typography, color psychology, and composition principles to enhance celebratory themes.
- Successfully managed two customers at once in fast-paced environments, ensuring timely service and 100% satisfaction through active listening and prioritization.
- Balanced competing demands by organizing tasks efficiently (e.g., processing orders while designing custom birthday assets).
- Maintained accuracy and attention to detail under pressure, resolving issues proactively to exceed expectations.

NON TECHNICAL SKILLS

1. Communication & Collaboration

- Clear Communication: Explaining tech concepts to non-tech stakeholders.
- Active Listening: Understanding client/team needs effectively.
- Teamwork: Collaborating with designers, developers, and clients.

2. Problem-Solving & Adaptability

- Critical Thinking: Debugging code or optimizing designs creatively.
- Learning Agility: Quickly mastering new tools/frameworks (e.g., React).
- Resilience: Bouncing back from project setbacks.

3. Time Management & Organization

- Multitasking: Balancing studies, personal projects, and work.
- Prioritization: Meeting deadlines for design/dev deliverables.
- Attention to Detail: Catching UI inconsistencies or code errors.

4. Creativity & User-Centric Mindset

- Design Thinking: Creating intuitive, user-friendly interfaces.
- Aesthetic Sense: Crafting visually appealing graphics (birthday designs → UI assets).

5. Client/Customer Service

- Empathy: Addressing user pain points in UX.
- Patience: Handling client feedback or troubleshooting.
- Negotiation: Managing scope changes in projects
